SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: Fatality Analysis Reporting System (FARS)

OMB Number: 2127-0006

Type of Request: Continuation.

Abstract: Under both the Highway Safety Act of 1966 and the National Traffic and Motor Vehicle Safety Act of 1966, as amended, the National Highway Traffic Safety Administration (NHTSA) has the responsibility to collect accident data that support the establishment and enforcement of motor vehicle regulations and highway safety programs. These regulations and programs are developed to reduce the severity of injury and the property damage associated with motor vehicle accidents. The Fatality Analysis Reporting System (FARS) is a major system that acquires national fatality information directly from existing State files and documents. The total user population includes Federal and State agencies and the private sector.

Affected Public: State, Local or Tribal Government

Estimated Annual Burden: 98,655 hours

Number of Respondents: 52

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Departments estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents,

including the use of automated collection techniques or other forms of information technology.

A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, D.C., on January 31, 2014.

Terry T. Shelton,
Associate Administrator for National Center for Statistics and Analysis.
